BIGWAVE
Dear Management,

I am applying for the web application developer position that has been posted on facebook. This opportunity fits well with my 1 year+ proven professional work experience at augnitive, skills, education and my career interest. I was associated with 5+ projects at augnitive. I have completed my Bachelor's in Science Degree from United International University from the department of Computer Science and Engineering (CSE) with a CGPA of 3.78 out of 4. I have a very strong background and skills in the programming language that will help me develop softwares. I believe with this talent and skill of mine I can be of good use in your company and with all the years of experience that your company has, I will surely be able to learn more. My dedication and hard working attitude makes me the perfect fit for this position. My thirst for success and gaining more knowledge to improve myself at every step is something that would benefit your company as I would give more than 100% for your company. I have attached my resume with this letter. You will find more details about my education and skills in that resume. I pray and hope that you will give me a chance to be a part of your company. [Here my expected salary is 30k.](#)

Sincerely,
Md. Mamun Hassan
